

**Feature:**

Provide protection against mechanically and thermally generated particulates up to 10 times the exposure standard such as silica, coal, lead dust, asbestos fibre, welding, soldering, and zinc oxide fumes.

RESPIRATORY PROTECTION

**Affinity Plus for Welding**

**Features:**

- Lightweight and comfortable
- Snug fit and smooth material
- Pre-shaped nose clip with plastic attachments
- Color coding for quick identification (Red, yellow and green)
- Universal size for easy selection and less inventory

**Ultra Twin**

**Features:**

- Have inturred lip around the edge for a secure, and comfortable seal.
- Rugged construction
- Polycarbonate lens
- Meet ANSI Z87.1
- A large chin cup makes it easy to position

**Advantage 200LS**

**Features:**

- Twin filter model
- Lightweight and flexible, soft pliable peel
- Wide sealing surface
- Contoured mask maximises wearer's vision
- Meet ANSI Z87.1
- Softer facepiece is made from a clear blue thermoplastic rubber

**Comfo Classic**

**Features:**

- Contoured and lightweight facepiece
- Excellent chemical resistance
- Large inhalation/exhalation ports
- Easily adjustable cradle headband
- Meet ANSI Z87.1
- Features a unique face seal design

**Respiratory Protection**

**Organic vapour cartridges**

- Organic vapours (Up to 1000 ppm) and harmful dusts, mists, pollen, fumes (GMA P100)
- Used with comfo classic half-mask respirator or ultra twin fullface mask
- NIOSH-approved (to 42 CFR, part 84)

**Advantage organic vapour cartridges**

- Against organic vapours (up to 1000 ppm), harmful dusts, mists, pollen, and fumes
- Used with advantage 200 LS respirator half-mask
- NIOSH-approved (to 42 CFR, part 84)

**GME Multigas Cartridges**

- Cartridge for organic vapour, chlorine, SO<sub>2</sub>, ClO<sub>2</sub>, hydrogen chloride, Nh<sub>3</sub>, etc.

**GME Advantage**

**Respirator multi purpose gas**

- The service time depends on the conditions of use
- Effective for organic vapours and many gases including Cl, SO<sub>2</sub>, NH<sub>3</sub>, etc.
- Light weight, low profile performance and fit both 200 LS half mask and 3000 full facepiece advantage respirator
- NIOSH approval

**Respiratory Protection**

**OptimAir 6A PAPR**

- Filtering contaminants from ambient air and providing a constant flow to either a facepiece or hood
- Included motor/blower module and rechargeable NiCad battery
- Use two filters

**Respiratory Protection**

**OptimAir 6A PAPR for homeland security**

- Use belt-mounted motor/blower and combination cartridge
- Maintenance-free lithium battery with 10-years shelf life
- Optional rechargeable NiCad battery

## RESPIRATORY PROTECTION

### ► Advantage 410 Respirator

- Advantage 410 Respirators
- User-friendly
  - A new member of the advantage family
  - Available in single thread and twin bayonet
  - The one-piece nose cup is made of soft over-molded silicone and rigid plastic

- Combined Filter for Advantage 410
- The service time depends on the conditions of use
  - Effective for Particle, Organic gases and Inorganic gases
  - Particle filters can be used against radioactive contaminants, spores, bacteria, virus, and proteolytic enzymes

### ► Advantage 3000

- Features :**
- Twin filter model
  - Lens has a scratch resistant coating
  - Uses same cartridges and filters as the advantage 200LS
  - Meet ANSI Z87.1

### ► Respiratory Protection

- Industrial-Size and Super-Size Gas Mask
- Design for respiratory protection against a specific gas or group of gases as indicated by canister identification
  - The super-size gas mask have a window-cator canister with contains an indicators to show the effectiveness of the canister against certain contaminants
  - Never be used in confined spaces or where oxygen deficiency and high gaseous concentration may occur

## RESPIRATORY PROTECTION

### ► Respiratory Protection

- RC56 Chemical cartridge
- Against organic gases and vapour
  - Used for RQ1000, RQ2000
  - Against organic and inorganic gases and vapour and agriculture insecticides, toxic dust, mists and fumes

- Economical neo-rubber robust design
- Twin filter model
- Standard AS/NZS1716

- PR-61 RC64 Dust cartridge
- Against toxic dust, mists and fumes
  - Used

### ► RFF60, RC224 Cartridge

- Soft silicon face seal
- Low profile visor and filter positioning provides panoramic vision
- Speech diaphragm facilitates clear communication
- Standard AS/NZS1716

### PR-45 RC224 Cartridge

- Acid gases and vapour plus solid and liquid particles (include dusts, mists, fumes, bacteria, and viruses)
- Type A2B2E2P3,

## RESPIRATORY PROTECTION

### ► Half Mask Respirator (Single)

- Features :**
- Single cartridge respirator half mask
  - Soft durable pliable rubber facepiece
  - Durable elastic headbands, deep chin cup for a roomy
  - Comfortable seal and easy exhaling
  - Cartridge sold separately

### ► Half Mask Respirator (Double)

- Features :**
- Double cartridge respirator half mask
  - Soft durable pliable rubber facepiece
  - Durable elastic headbands, deep chin cup for a roomy
  - Comfortable seal and easy exhaling
  - Cartridge sold separately

## RESPIRATORY PROTECTION

### ► Respiratory Protection

CE

Acid Gas and Inorganic Cartridge  
 · Against acid gas and inorganic vapors of low toxicity  
 · Size: Ø 70 x 30H(mm)

CE

Organic Vapour and Paint Spray Cartridge  
 · Against paint spray and organic vapors of low toxicity  
 · Size: Ø 70 x 30H(mm)

CE

Dust, Mist, Fume, and Cartridge  
 · Against dust, mist, fumes and asbestos  
 · Size: Ø 70 x 30H(mm)

### ► Dust Mask Disposable

CE

**NEW**

#### Features :

- Lightweight
- Metal noseclips to fit individual facial contours
- Does not impair breathing, voice and vision
- No interference with glasses

### ► N95 Dust Mist

**NEW**

#### Features :

- Durable elastic headband
- Metal noseclips to fit individual facial contours
- Does not impair breathing, voice, and vision
- No interference with glasses

## OIL ABSORBENT

**NEW**

**NEW**

### ► Dust Mask

CE

**KW10-302**  
(Refill)

#### KW10-301 Dust mask

- Lightweight, PE frame covered by polyester fiber
- Comfortable for against dust and mist
- Filter is replaceable

### ► Active Carbon Filter Mask

CE

CE

#### Active carbon filter mask

- Lightweight, PE frame covered by polyester fiber, comfortable
- With active carbon filter protection against toxic dust and filter out odors
- Active carbon filter is replaceable

- To filter out odors, dust and mist

### ► Respiratory Protection

**NEW**

**NEW**

- N95 Dust mist with valve
- Durable elastic headband
  - Metal noseclips to fit individual facial contours
  - Comfortable type include valve

- N95 Dust mist active carbon with valve
- Durable elastic headband
  - Metal noseclips to fit individual facial contours
  - Comfortable type include valve
